In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Sara Monahan

36201 North Summit Drive, Cave Creek, AZ, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement is unfair and not enough to compensate for my losses.

Personal note to The Honorable Thomas W. Thrash Jr.

It is unbelievable that millions of people had their social security numbers go missing under Equifax's watch and the settlement is a measly \$10 bucks a person or more credit monitoring services from another company who just got done settling their own class action suit for wrong doing! This is just another horrible example of the way big businesses get to crap all over the hard working middle class americans every single day.

The proposed settlement is ludicrous and not punishment enough for those of us that trusted our data to be safe. Equifax makes millions of dollars; they need to pay for the damages done.

I object to this settlement due to \$125 was promised but now it may be significantly less. A lot of private information was released and they should have to pay their penalty

Case No. 1:17-md-2800-TWT

Donald Smith

3033 Holme Avenue 2nd Floor Philadelphia PA 19136

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

A mere pittance being paid out for such an extreme violation is heinous.

Personal note to The Honorable Thomas W. Thrash Jr.

I have limited financial means, and this data breach has placed undue strain on my budget, my financial security practices, and my peace of mind. Equifax has abused the trust of its users and done lasting harm, and should absolutely not be permitted to continue in the industry without significant consequences, if at all.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement is a disgrace to the millions of people who had personal information stolen from a site that we trusted to keep our information safe. They failed us and now the system is failing us. I have to worry every day if today I'll have my identity stolen by someone who bought my social security number on the web. I have to closely monitor my credit report on a daily basis to make sure the accounts are accurate and mine. The very fact that the system thinks what happened and what millions of people are now worrying about is worth about \$5 is a disgrace.

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☐
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

equifax is not actually paying what was agreed to-no cash, bait and switch emails to accept monitoring instead

I object to this settlement because there is not a price tag that can be put on personal security and personal safety. Equifax is someone that should be held accountable as a trusted resource and just slapping them on the hand is unacceptable.

Over the past few decades, we have seen many different organizations sell and resell our personal data for profit. I have seen a dramatic increase in unsolicited and fraudulent attempts to use this data to influence my financial actions. The number of unsolicited emails, phone calls, and text messages simply cannot be calculated.

My parents have been victims of attempts to mine their data as well. Companies which sell our personal and confidential information simply cannot be made to pay a minimal fine based on the damage they have done to the public's personal data and financial freedom.

Equifax initially promised much higher compensation to affected class action members but instead will be paying a fraction of that.

Without sufficient penalty, it is likely that Equifax and other companies will not take data privacy seriously and will instead view these actions as low cost of doing business.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Melissa Young

5121 Catoma St #C77
Jacksonville FL 32210

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

In this day and age of creditworthiness being a huge factor in our daily lives and identity theft being a serious problem, this breach is more serious than Equifax has admitted. Equifax makes millions of dollars dispensing personal information. Since they failed to keep our most important data safe, they should pay a penalty equal to how much they failed the average American.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Sharon Beko

2907 16th Ave NE
Naples, FL 34120

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

Good evening your Honor,

I was involved in the Equifax breach as well and have ZERO confidence in their ability to protect me and my information anymore. To force people to choose \$10 or yet another company that will compromise your information is by no means any type of settlement. Can you PLEASE help us with a better option or better payout? Who is going to learn from this if they aren't made to rectify their carelessness?

Thank you for taking time out to read my letter your Honor.

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐

- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

Given the egregious nature of this breach, and the substantial income Equifax enjoys in the business of data storage and mining and reporting, I expect that they should be held to a much higher punishment standard for being so irresponsible with my data.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Franklin Womble

6847 Stewart Road, Apt #320, Cincinnati, OH, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I may attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The amount of the settlement is inadequate given the magnitude of the breach and potential for future harm that Equifax should be responsible for. Further, the settlement funds are not even adequate to pay out claims to each of the class members- if each member elects this option.

Imagine if my or your identity were stolen as a result of this breach and our bank account was emptied. The costs simply to borrow money to cover essential expenses like food and rent would be far beyond the proposed settlement amount. Equifax should be required to pay for these costs when they occur, and it's certain that some people will have these costs in the future- just like some people have already had them. the amount of the settlement therefore is inadequate.

Honorable Thrash,

As being a person who has had their information taken advantage of in the past, this settlement is nothing more then a slap on the wrist, to a company, that was negligent in their security and safeguarding my personal information. The fine they're receiving just goes to show other companies, that they got away with not having adequate safeguards and properly trained individuals.. if it was up to me the fine would be a percentage of their yearly profits in the range or 20-35%. I am not looking for money I'm looking not be to taken advantage or lightly as thier mistake has cost people so dearly. V/r Alvin R. Davis IV

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I whole heartedly object to this Equifax settlement offer. I feel that what is being offered does no justice. Actions speak louder and this company needs to be held accountable for this data breach. A heftier fine will ensure that I believe.

Personal note to The Honorable Thomas W. Thrash Jr.

Equifax totally underestimated the harm and deliberately desires to underpay those of use harmed by their actions. The initial settlement amount of \$125 on its face was sufficient, but now that value has dropped by more than 80%. That is not the fault of consumers and I should not be penalized because more plaintiffs are choosing a cash settlement in lieu of Equifax credit monitoring.

Equifax has proved itself to be completely incompetent and corrupt in its essential operating behavior around user data. This settlement is unfair. This company's incompetence has exposed my personal data to hackers, and I have already been sim hacked by TMobile, and my data is now open on the internet. They must be held liable for their actions, and this settlement is a joke.

I believe its totally unfair that all of us that trusted this company were let down and to say we get 5 dollars for all we have to keep doing is a total slap in the face to us. The attys are getting 77 million while the ones who will have to watch their credit reports for the rest of their life get nothing, nope doesn't work for me. My name was already used once in a scam, by another company who was hacked and that took over a year to clean up that mess. So no I'm not taking 5 dollars and a slap in the face.

In re: Equifax Inc. Customer Data Security Breach Litigation

Case No. 1:17-md-2800-TWT

Alex Neuman

X7 Avon Drive, East Windsor, NJ, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement is wholly inadequate to address the lack of security by Equifax. For the rest of my life, I and millions of others like me, will have to live with the mistakes made in this case.

Personal note to The Honorable Thomas W. Thrash Jr.

I find the terms of the data breach settlement to totally unfair to those whose information was compromised. For the terms to be reduced over and over again isn't what we as complaint filers were told was going to happen. These companies should not be rewarded for acting recklessly with our personal details.

The fact that a few lawyers get millions while we who have all this information exposed on the dark web get practically nothing makes no sense. We have to spend hours trying to fix our online lives never knowing whether it will be enough or not. Our financial assets, our identities, and our privacy are all at risk forever.
